

# CQ Strawberry Kiwi Infused Iced Tea

1 pouch recipe will fill our 3.5-gallon beverage dispenser twice

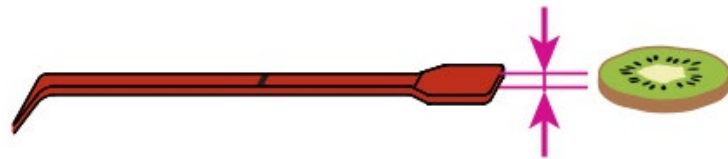

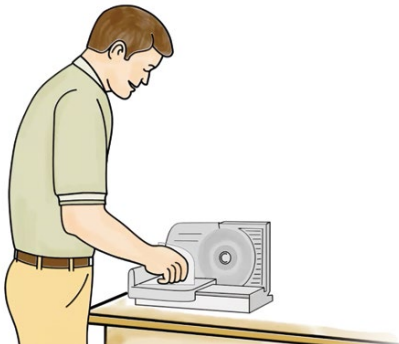

## 1 Ingredients

- 1 Pouch of CQ Strawberry Puree
- 12 Kiwis - 56 slices
- 3 Gallons Brewed Iced Tea (Chilled)

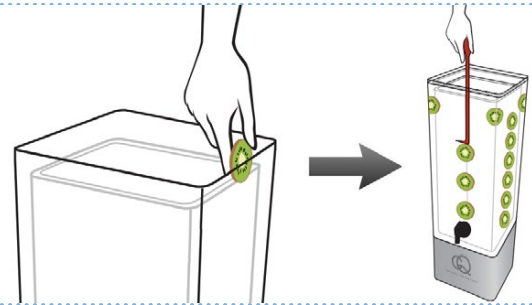

## 2 The Perfect Slice: Put away your chef knife

USING A SLICER OR MANDOLIN ONLY, cut a test slice and compare it to the CQ Slicer Key/Wand's handle. Adjust your slicer or mandolin until your slices match the thickness of the CQ Slicer Key/Wand. Once calibrated, slice up all ingredients as necessary.

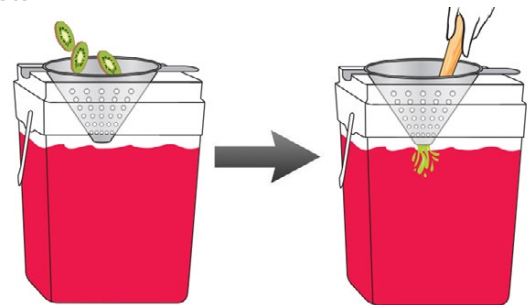

## 3 Decorating the Beverage Dispenser

To set the insert in place, position a slice at each corner of the jar between the insert and the jar. Use the CQ Slicer Key/Wand to push the slices all the way down. Decorate the rest of the jar using the CQ Slicer Key/Wand to position the remaining slices as shown in the picture.

## 4 Infusing the Iced Tea

Using the CQ Slicer Key/Wand to measure, fill the CQ Mixing Bucket with 3 gallons of freshly brewed iced tea (chilled). Add 1 pouch of CQ Puree and stir. Next, place a metal strainer in the mixing bucket and muddle any remaining slices. This technique will ensure that no pieces end up blocking the spigot later.

## 5 Filling, Serving & Refreshing

Fill the beverage container to the top with ice cubes (about 10 lbs.) and add the CQ Strawberry Kiwi Infused Iced Tea. To refresh, add equal amounts of ice & CQ Infused Iced Tea.
